

## Extra Curricular Music Activities

### MUSIQHUB lessons:

**Dave** has taught the **guitar** and ukulele to Primary school aged children, for over 15 years.

He specialises in teaching beginners and is always keeping his lessons relaxed and fun for young guitar and ukulele students.

Dave enjoys working with kids, and is great at engaging with them in the lesson time, teaching anything from traditional folk songs to current pop/rock tunes.

### Lewis Eady music:

**Gulnara** began her career in 1998 as a **piano** teacher and accompanist at the Almaty State Conservatory in Kazakhstan and taught piano at the Astana National Academy of Music. Gulnara moved to Fiji in 2005, where she was the accredited piano tutor for the International School Suva.

She has recently completed postgraduate studies at the University of Auckland School of Music. Gulnara is a mum to four boys and enjoys teaching and performing piano recitals.

## Music Education Centre:

**Amanda** has been teaching music for 30 years, both individually and in groups. She has taught all ages and abilities.

Over many years she has given individual lessons in various schools, core music classes in schools to all year groups and run music holiday programmes. She thrives in seeing students succeed and enjoys watching their passion for music grow. As well as her abundance of teaching experience, Amanda holds an L.T.C.L diploma in **piano** and a Masters in musicology.

**MUSIC LESSONS AT SCHOOL!**

The Music Education Centre offers specialist music tuition for a range of instruments including Piano, Guitar, Drums and more!

**IT'S CONVENIENT!**

Have your child's music lesson right at their school and give them the opportunity to develop their skills through our individualised lessons that're both fun and educational! Learning music supports all areas of learning through developing confidence, creativity, concentration and so much more!

### WHY teach music?

#### music is a science

It is exact, specific; it demands exact acoustics. A conductor's full score is a chart, a graph which indicates frequencies, intensities, volume changes, melody and harmony all at once and with the most exact control of time.

#### music is mathematical

It is rhythmically based on the subdivision of time into fractions which must be done instantaneously, not worked out on paper.

#### music is a foreign language

Most of the terms are in Italian, German, or French; and the notation is certainly not English – but a highly developed kind of shorthand that uses symbols to represent ideas. The semantics of music is the most complete and universal language. Also, many songs we study are from other cultures.

#### music is physical education

It requires fantastic coordination of fingers, hands, arms, lip, cheek, and facial muscles, in addition to extraordinary control of the diaphragmatic, back, stomach, and chest muscles, which respond instantly to the sound the ear hears and the mind interprets.

#### most of all, music is art.

It allows a human being to take all these dry, technically boring (but difficult) techniques and use them to create emotion. That is one thing science cannot duplicate: humanism, feeling, emotion.

**Shaun** has over 20 years of experience teaching **drums** and performing in the live music scene. "I am passionate about developing students' interest in music and helping them progress on their drumming journey. With lessons being one-to-one, I am committed to making lessons fun and adaptable for each students' musical interests, goals and needs."
